

Horse Show Brought Out Best Showing Horses Ever Exhibited Grande Prairie

Howard Journey Awarded Donald Hotel Silver Trophy in Heavy Draft Class—Miss Lila Mae Roberts of Bear Lake Won Donald Bronze Trophy in the Saddle Class—Judges Surprised At The Excellent Showing in All Classes, Which Was Considered By George Balmer, President Of The Agricultural Society, The Best Showing Of Horses Ever Seen At Grande Prairie.

The horse show put on in connection with Frank Donald's sports program, staged on Friday and Saturday last, gave those in attendance an opportunity to see some of the high-quality horses raised in this part of the Peace River.

George Balmer, president of the Agricultural Society, and G. F. Cooke, director, stated that the exhibit of horses was the best ever seen in Grande Prairie, and this in spite of the fact that farmers had only ten days' notice to make preparation.

The judges, "Ab" White of Spirit River and "Ed" Grant of Kesteven Ranch, stated to The Tribune reporter that they were surprised at the outstanding quality of the animals. They attributed the showing to the quality sires that have been shipped into this area during recent years.

Howard Journey was awarded the Donald Hotel Silver Cup in the heavy draft class. Journey, who was a big winner, showed a team of black Percherons. There were 15 entries in the saddle class, which had 18 entries. Miss Lila Mae Roberts of Bear Lake won the Donald Bronze Trophy.

The judges took some time in making their placings in the suckling colt class, in which there were seven entries, so uniform was the quality.

The following is a list of the winners:

Friday, July 15
HALTER CLASSES
Colts—Pilly or Gelding, two years and over: 1st, Ashley Thompson, Kleskun Hill (black Percheron); 2nd, A. Yates, Grande Prairie. Four entries.

General Purpose—Mare or Gelding, 3 years and over, under 1400 pounds, true to type: 1st, Everett Sheehan, Clairmont (Belgian); 2nd, G. F. Cooke, Grande Prairie (Percheron); 3rd, Owen Pickles, Grande Prairie. Nine entries.

Three-Year-Old Colts: 1st, Ashley Thompson (Percheron); 2nd, Ashley Thompson (Percheron). Four entries.

Agricultural—Mare or Gelding, 3 years and over, under 1400 pounds, true to type: 1st, Ashley Thompson, Kleskun Hill (Percheron); 2nd, D. B. Cooke, Grande Prairie (grey Percheron). Four entries.

Blood Mare with Foal at Side: 1st, Howard Journey, Grande Prairie; 2nd, Mrs. T. Langdon, Clairmont; 3rd, Ashley Thompson, Kleskun Hill. Four entries.

Heavy Draft—Mare or Gelding, 3 years and over, under 1600 pounds, true to type: 1st, Howard Journey, Grande Prairie (black Percheron); 2nd, Ashley Thompson, Kleskun Hill. Four entries.

G. P. Party Plan Trip To Kinuso Falls July 28

The announcement of a trip by a cavalcade of three or four trucks from different points on the Monckman Pass road to see the end of construction at spectacular Kinuso Falls is arousing much interest among local enthusiasts and is expected to draw many ladies as well as men have signified their intention of being with the history-making party, which is scheduled to leave Beaver Lodge, it is confidently expected, on the morning of Thursday, July 28.

The trip should take three or four days, which allows a day or two to enjoy the wonder of the falls.

The trucks will not stop for camp until they reach the falls, where they should be in time for a late lunch. Passengers will be well advised to take a packet lunch in case they get hungry.

J. H. Charters is in charge of arrangements at Grande Prairie and anyone wishing to join this most unusual jaunt should get in touch with him as soon as possible, as the truck will only accommodate fifteen passengers. Chester Miller has kindly offered his truck and services as driver for the trip.

This is an opportunity which will not come again—to be on the first motor vehicle to traverse the newly constructed road to the falls.

There are about 75 men on the work crews now. Besides these some saddle parties are leaving in Captain Wiedemann, to sound out Lord Halifax, British Foreign Secretary, on British policy.

Arrangements for the trip may also be made at H. Cooke, Wembley, Moore's Store, Beaver Lodge or with Crobie McNaught, Halcourt.

HITLER WANTS TO KNOW IF BRITAIN IS BLUFFING

LONDON, July 20.—Desiring to discover whether Britain is bluffing or whether she would fight side by side with France and Czechoslovakia is London's possible friend, said a source in the Foreign Office, to sound out Lord Halifax, British Foreign Secretary, on British policy.

2nd, Howard Journey (black Percheron); 3rd, J. S. Teeples, Grande Prairie (Clydes). Four entries.

Blood Mare with Foal at Side: 1st, J. S. Teeples, Grande Prairie. One entry.

Registered Mare—True to type: 1st, Geo. Swanton, Grande Prairie (black Percheron).

Colts—True to type: 1st, Geo. Swanton, Grande Prairie (Percheron).

Colts—An outstanding class of seven entries: 1st, Horace Partlow, Grande Prairie; 2nd, Gordon Thompson, Kleskun Hill; 3rd, Mrs. T. Langdon, Clairmont.

Town Fathers Again Burn The Midnight Oil

To Ask Dominion Government For \$100,000 To Build Two Town Halls—Petition To Permit Of Extending The Hours On Saturday Night Considered By The Town Council To Send In A Man To Go Into The Whole Question Of Hours.

The passing of accounts and dealing with relief matters took up the major part of the time of the town fathers at a long session held on Monday night.

The first item dealt with was the acquisition of the financial statement for June.

O. B. Harris and Dr. Carlisle asked council if it was the intention to put water facilities along their street, which leads to the hospital. They stated that they had been under the impression that such service would be supplied, but they were informed that this was not so, that the original plans did not make provision for this.

The delegation was informed by the Mayor that there was no provision made for the installation of water, but he hoped that before long water service would be added.

Mr. Harris pointed out that if the water service was installed on their street it would immediately increase revenue producing, as the majority had expressed their intention of building up with stores and other places of business be allowed to keep open on Saturday nights till midnight instead of 10 o'clock.

Councillor Porteous again pointed out that the question of money was carefully figured out by merchants to comply with the Provincial Act, and suggested that the Department of Municipal Affairs be asked to send in an inspector to go into the whole matter. This idea was embodied in a motion which was carried.

The question of the advisability of borrowing a certain amount of low interest money from the Dominion government again came up for discussion. The councillors and Mayor expressed themselves in favor of securing such a loan.

After all the members of council had heard the question of money was carefully figured out by merchants to comply with the Provincial Act, and suggested that the Department of Municipal Affairs be asked to send in an inspector to go into the whole matter. This idea was embodied in a motion which was carried.

The council was informed through a letter from the Department of Municipal Affairs that the Department had entered suit to recover a certain amount in connection with the question of money. This matter was turned over to the town solicitor.

Two by-laws in respect to selling property now owned by the town received the necessary two readings. The following accounts were passed for payment: General, \$438.35; labor, \$158.65; unemployed relief, \$8; child welfare, \$59.73; mothers' allowance, \$16; indigent relief, \$32.75; medical aid, \$50; indigent medical relief, \$110; medical officer's retaining fee, \$75. Total, \$946.48.

It was midnight when the meeting adjourned.

Joseph N. Pellerin Of East End Laid To Rest Tuesday

Death removed an oldtimer of the East End in the person of Joseph Napoleon Pellerin, who died at his home on Sunday.

The funeral took place on Tuesday, July 19, at 10 o'clock, in St. Joseph's Church, Father McGuire officiating. Burial took place in the Grande Prairie cemetery. The pallbearers were Joe Tassington, Bill Hunter, Bob McDonald and George Young.

Joseph Napoleon Pellerin was born in Quebec, Canada, 31 years ago. As a young man he worked for many years in the United States. He and Mrs. Pellerin were married in North Dakota. Later they moved to Minnesota, where they lived for many years. They came to Grande Prairie in 1914 and settled on land a few miles east of town in the Five Mile school district.

OLDTIMERS' Donald's Two-Days Sport PICNIC TO BE HELD JULY 27

The Annual Oldtimers' Picnic will be held at Lake Saskatoon on Wednesday, July 27. There will be swimming races, athletic events, softball, and horseback riding. The annual softball game, East vs. West, will be held at 1 o'clock. Music will be furnished by the Beaver Lodge Band, who have again generously offered their services. Hot water will be supplied. EVERYONE IS WELCOME.

In the evening an old-time dance will be held in Lake Saskatoon Memorial Hall. Admission to the dance is free but strictly confined to Oldtimers and their families only.

Bishop Langlois Made First Official Visit Here Sunday

Delivered Splendid Sermons, In Both French And English, At The Pontifical High Mass—Reception Held In The School Grounds In The Afternoon Later Followed By The Pontifical Benediction.

Bishop Langlois, the newly consecrated successor of Bishop Guay, made his first official visit to the town of Grande Prairie on Sunday, July 17. He was accompanied by Rev. Stanislaus Lajoie, who had been Administrator of the Vicariate.

Due to doubtful weather conditions the morning services were held in the school grounds, where a large number of people were present.

Clad in the official vestments of his episcopate, preceded by 25 sanctuary boys and assisted by Rev. Fathers Lajoie, Michaelowski and McGuire, the Bishop proceeded from the rectory to the church and the Pontifical High Mass commenced. A choir made up of groups from Grande Prairie, Buffalo Lakes, Kleskun and Rio Grande, directed by Stanley Thieme, sang the Sixth Tone Mass in Gregorian chant.

Bert Church of the C.F.G.P. handled the radio broadcast. Paul Guy announced the ceremonial order. The Bishop gave the Pontifical Benediction, both in English and French.

Afternoon Reception

In the afternoon a reception in his Excellency's hall on the school grounds.

The address of welcome was sung by the school choir at the opening of the ceremony.

Introduced by Father McGuire, representatives of the various districts welcomed the Bishop.

The address of welcome was read by E. M. Lanctot.

His Excellency in reply thanked all present for their hearty welcome and expressed the hope that he would be able in the near future to spend several days in Grande Prairie and district, when he hoped to get better acquainted with the people.

In closing his brief remarks Bishop Langlois asked the cooperation of all Catholics in the Peace River and district, "where you will find us all loving fathers."

Following the interesting ceremony, the Bishop and his entourage went to the church again for Pontifical Benediction.

In the service was over all the men present were invited to dine with the Bishop.

Cheese Factory Is Being Built In The Crooked Creek Dist.

CROOKED CREEK, July 18.—With a view to making this district still further sustaining a cooperative cheese factory it is planned to build a building which will be situated on Deep Creek, three and a half miles south of the highway and equipment will be installed as soon as the building is ready. Production will begin this summer.

Besides the Crooked Creek district the factory will serve Gravelly, Thimbleton, and Ruby Valley areas, which are especially suitable for the production of milk. The cooperative movement each farmer pledges himself to milk so as to be responsible on account of the stability of the cheese factory.

Donald's Two-Days Sport Offering, Under Favorable Conditions Well Attended

Donald's two-day sports program, with every minute crowded with events, attracted good crowds, especially on the last day, when there was a bumper crowd in attendance. The race-horse card brought together the largest number of runners ever seen in the Peace River. In the free-for-all there were an even dozen of the best horses in this country entered.

The athletic division proved interesting. In the baseball Spirit River annexed first money. The young ladies from Spirit River also won the ladies' softball tournament.

One of the highlights of the two days was the horse show, at which the best horses in the Grande Prairie district were shown. On the second day much interest was taken in the parade past the grandstand of these high-type animals.

It remained for "Reg" Foster to furnish the real thrill of the meet when from a slight elevation he drove his Ford into the air for a distance of some sixty feet, then on a second try he would immediately drop the Ford into the air for a distance of some sixty feet, then on a second try he would immediately drop the Ford into the air for a distance of some sixty feet.

On the second day the town band, under the leadership of Bert Church, was in attendance and further livened up proceedings.

Claude Young was the official announcer. Alex Wishart was the starter at the horse races, and George Young, Billie Bayhan, and Hugh Thompson acted as judges.

Baseball was in charge of Gordon Orr.

Wanham Party Struck By Grandeur Of Kinuso Falls

The party of men from Wanham who did their bit in the Monckman Pass, returned to Grande Prairie on Tuesday.

The visitors went as far as Kinuso Falls, which they described as magnificent and the sight of a trip into the mountains as one would expect.

Baseball and hockey being the popular games.

Elwood intends to return to Sudbury in the fall, while Keith says in all probability he will stay here till next spring.

Nelson Forks And Ft. Liard To Have Air-Mail Service

T. J. Reilly, inspector of postal service, who is on an inspection trip through the Peace River, and who was at Grande Prairie on Wednesday, informed The Tribune that air mail service from Fort St. John to Nelson Forks and Fort Liard was inaugurated on Thursday, July 21.

At the same time a post office was opened at Nelson Forks. On Monday morning the Bishop and Mrs. Sovereign left for Goodwin, where a confirmation service was held, with the assistance of Rev. B. A. Thorpe and Mr. H. Davies. On Monday afternoon they returned to Bishop's Lodge at Peace River.

Athletic Association To Follow Original Program Wed. and Thur., Aug. 3-4

All Committees To Meet In The Town Hall on Friday Night, July 22—Presents To Go Towards Advancement Of Sport In Community And Public Asked To Keep Dates In Mind.

All committees of the Grande Prairie Athletic Association are asked to meet in the Town Hall on Friday night, July 22, to complete details for the holding of the annual sports which are dependent on account of rain from July 1 and 2 to August 3 and 4, in mind.

Elwood Pender And Keith Black Return Home

Elwood Pender and Keith Black, who were working at the Sudbury nickel mines for some time, returned home on Monday.

Starting from Sudbury in a motor car, the boys met grief fourteen miles west of Duluth when their car went into and over a ditch. Pender got his nose badly cut when his head went through the windshield. Black was not injured. The car was so badly smashed that it was abandoned.

In conversation with The Tribune reporter, Elwood, who was at Sudbury during the past two years, reported that thirty per cent of the men at the mines have been laid off, due he was told, to the large surplus built up and to the lack of demand for nickel.

Elwood Pender is still working at Sudbury. The brothers have done considerable boxing at the mining town and have fared well. Elwood stated that boxing is not as popular at the mines as one would expect.

Baseball and hockey being the popular games.

Elwood intends to return to Sudbury in the fall, while Keith says in all probability he will stay here till next spring.

Beaver Lodge Defeats Grande Prairie 8-6

BEAVER LODGE, July 20.—Grande Prairie and the local senior ball teams clashed here in a league game on Sunday, Beaver Lodge winning by a nine-inning affair.

The visitors got a tough break in the fourth frame when the locals in a cutting rally put five men across the plate.

Beaver Lodge—C. Hume and Carter.

Grande Prairie—R. Wright and A. Wright.

Wembley Boys Grain Champions At Calgary Show

James Sebastian Won Wheat Championship; Justin Rigby The Oats Championship, Defeating Watson, The Canadian, Champion. All Attendance Records Since 1938 Broken, Says G. S. Black, District Agriculturist.

G. S. Black, District Agriculturist, arrived home from Calgary on Wednesday afternoon.

Mr. Black was wearing a broad smile, for the reason that two Wembley boys landed right at the top of the heap in the wheat and oat classes in keen competition at the Calgary Exhibition.

James Sebastian won the wheat championship and Justin Rigby the oat championship.

Justin defeated Watson, holder of the Canadian oat championship, so the victory had an added value.

Speaking of the Calgary Agricultural show, Mr. Black stated that the Percheron and Clydesdale classes were well filled and the horses outstepped.

In point of attendance, observed Mr. Black, all records at Calgary Exhibition since 1929 were broken. Mr. Black had charge of a boys' camp, at which 50 young men from the south were in attendance.

The District Agriculturist stopped at noon and attended the exhibition, which was just getting under way. He was informed that the entries in the agricultural division were larger than last year.

Bishop Sovereign Visitor To Grande Prairie and Dist.

Rev. T. D. Jones Of Parish Of Colinton Appointed Successor Of Canon P. J. Pierce—Rev. K. L. Blackwood Inducted As Rector Of Wembley—Bishop Conducts Meetings At Several Points.

The Right Reverend A. H. Sovereign, M.A., D.D., F.R.C.S., Bishop of the Anglican Diocese of Athabasca, arrived in Grande Prairie on Saturday evening, Bishop Sovereign presiding at the opening of the Grande Prairie, and announced the appointment of the Reverend T. D. Jones of the parish of Colinton as the successor of Canon R. J. Pierce, who leaves next month for a parish on Vancouver Island.

On Sunday morning Bishop Sovereign preached at 11 o'clock, celebration of Holy Communion in Christ Church on the doctrine of the Holy Trinity.

After the service conducted by Rev. K. L. Sanderson as rector of the parish of Wembley at St. Andrew's Church at Lake Saskatoon. After Evensong, conducted by the new rector, Canon Pierce and Mr. A. M. C., who is lay reader of the parish, the Bishop conducted the rector to the door of the church, where he received the keys of the church and pledge of loyalty from the church wardens, Mr. F. Frewer and Mr. Smith.

Then the Bishop made a promise of faithful execution of his duties was exacted of the rector by the Bishop at the front, the prayer desk, the lectern, the pulpit, and the altar in turn, and the people of their duty to their rector.

The Bishop's license to preach was read by the rector, the Bible and Book of Common Prayer. In his sermon the Bishop explained the meaning of the Epiphany, which overflows the church, that this service was in the form of a covenant; both priest and people had a part to fulfill in the life of the parish. He reminded the congregation that in the early Christian Church the members were faithful in the Apostle's Doctrine, the breaking of bread, in Christian fellowship, and the prayers of the church, and he bade his hearers follow this example. He commended the new rector to them as one of sterling qualities and rich experience.

After the service reception was held on the lawn at the home of Mr. and Mrs. A. Roberts, at which the Bishop and Mrs. Sovereign, who accompanied him on his visit, were guests of honor.

On Monday evening the Bishop preached in the church of St. Barnabas at Flying Ship to another crowded congregation. On Monday morning the Bishop and Mrs. Sovereign left for Goodwin, where a confirmation service was held, with the assistance of Rev. B. A. Thorpe and Mr. H. Davies. On Monday afternoon they returned to Bishop's Lodge at Peace River.

Beaver Lodge Defeats Grande Prairie 8-6

BEAVER LODGE, July 20.—Grande Prairie and the local senior ball teams clashed here in a league game on Sunday, Beaver Lodge winning by a nine-inning affair.

The visitors got a tough break in the fourth frame when the locals in a cutting rally put five men across the plate.

Beaver Lodge—C. Hume and Carter.

Grande Prairie—R. Wright and A. Wright.

JUSTIN RIGBY Winner of the Oats Championship at Calgary Exhibition.

Peace River Rodeo Wed., Thur., Fri. July 27-28-29

A big three-day rodeo will be staged at the town of Peace River on Wednesday, Thursday and Friday, July 27, 28, and 29.

W. J. Boyd will be the manager of the rodeo. A new holiday are being offered in prizes. Horse races will be held each afternoon.

There will be attractive grandstand offerings and gigantic display of fireworks the last night.

The Royal Canadian Shows will furnish the midway attractions. Three days crammed full of excitement are promised.

Boys' Camp Offers Fine Holiday At Saskatoon Island

Boys aged from 11 to 16 may have the joy of going into camp for a week and having a real holiday under ideal conditions at Saskatoon Island. The boys will have the use of the cabins recently erected, and parents are assured the boys will have good sleeping quarters.

Leaders in Bible study, athletics, campcraft and games will be Rev. H. Rigby of Spirit River, Rev. R. Stead of DeWalt and Rev. W. Cann. Mrs. Burgess will be camp nurse.

Boys are asked to bring the following: Bible, knife, fork and spoon, bedroll, pillow, straw cushion, pillow, three blankets, sweater, soap and towel, bathing suits.

It has also suggested that they bring camera, flashlight, equipment for games, baseball and bat, musical instrument.

All wishing to attend this camp should send in their names to Rev. A. W. Smith, Grande Prairie, or get in touch with Rev. H. Rigby of DeWalt, by July 22.

The fee will be four dollars per boy, including food, shelter, and clothing, if more convenient.

Boys will be taken to the church, Grande Prairie, on Monday morning, at 10 o'clock, to take bed rolls, etc.

Boys lacking means of transportation.

'New Bulls For Old Ones' Is Offer Of Exchange Act

The Department of Agriculture, realizing that inferior shipments of cattle were due to the fact that purebred bulls were too costly to purchase and in operation now an act whereby any farmer desiring to exchange his bull for a bull calf of Shorthorn, Aberdeen, Hereford or Ford breeding can do so at a minimum cost.

Freight charges are absorbed, both on shipping out the old bull and bringing in the new, farmers in this area are encouraged to take advantage of this offer.

Full particulars and application forms may be obtained from the owners of bulls upon request. Act promptly if interested by writing or telegraphing the District Agriculturist at Grande Prairie.

JAPAN PROTESTS SOVIET MOVES IN MANCHUKUO

TOKIO, July 20.—Japan sent a new protest to Soviet Russia Tuesday, demanding that the Soviet government stop its moves in Manchukuo border areas. At the same time Japan permitted her Manchukuo border areas to be demanded directly of Russian border forces that they withdrew from territory Manchukuo declared they invaded July 11. The new Japanese protest—second since the incident occurred—was decided upon at a meeting of the Japanese War Minister and the Japanese Foreign Minister. Japanese newspapers reported intense activity in Manchukuo since the incident. A telegram said the greatest massing of troops in months had been noted. Aeroplanes, armored cars and motorized troops were being moved. The Trans-Siberian Railway, Tokio newspapers declared.

Canada's Radio Policy Is Sound Believes Taggart

Convinced Canada Wise In Concentrating On Delineation Of Distinctive Personality Of The Dominion

CBC Program Executive Returns After Six Months' Study British And European Broadcasting Methods

Guest Of CBC

Convinced Canada Wise In Concentrating On Delineation Of Distinctive Personality Of The Dominion

TORONTO, July 18.—Returning to Canada after six months' study of broadcasting methods in England and on the Continent, and as guest of CBC, George A. Taggart, CBC program executive, is convinced that the present system of nationalization is the only logical solution for the radio problems of this country.

"I personally feel that Canadians do not want a facsimile of any individual system," he told reporters from the liner Queen Mary. "Canada is sufficiently individual and original to wish to build a system which is a thoroughly Canadian in character," he said.

Mr. Taggart, exchanging places with Laurence Gilliam of BBC, who recently returned to England as guest of CBC, and who is the first Canadian to go abroad on the new exchange basis, believes that Canada has a wealth of program material worthy of international broadcasting. "My study of British and European broadcasting methods," he said, "confirms a previous conviction I had that CBC is wise in concentrating on the interpretation of the distinctive personality of Canada and at the same time making the best use of the talent of other countries. The general impression abroad is that the CBC has already become a potent factor in furthering better relations both within the British Commonwealth and in the world at large."

Paying great tribute to the efficiency of the BBC, Mr. Taggart added that the French system is enjoyed by it from private and political interference. "The world's greatest broadcasting system," he said, "is the BBC's summing up of the BBC."

During his stay in England Mr.

Taggart made a special study of late developments in television at Broadcasting House, where a regular daily service of talks and programs and Gaumont-British news reels is provided. He believes, however, that the time is far distant when television will be possible to present television to the mass public. "Television," he stated, "will never seriously effect straight sound broadcasting, simply because if put into full-time use it would consume in a month program fare equal to an entire year's film release from all the Hollywood studios. The general feeling in England is that television will be used primarily for actuality broadcasting, such as the Derby, the Henley Regatta (and great fires such as the Crystal Palace)."

Mr. Taggart concluded by saying that in his opinion BBC is performing the service of Empire broadcasting efficiently and with dignity in a way that cannot help but build up and maintain the confidence and respect of listeners.

A Modern Knight Throws Down The Gauntlet

When his foreman at the Woolwich arsenal made an insulting reference to the Scout and Lord Baden-Powell Rover Scout Tom Bromley, of the 12th West Ham River Crew, challenged him to a fight to a finish at the Green Gate Boxing Ring. The fight was accepted, and the fight was held. The Rover proved the better fighter, flooring his opponent three times, but the foreman was the better boxer, and the fight was declared a draw. At the conclusion the foreman apologized for his remarks and later applied to become a member of the Rover Crew.

Tell and Sell with a Tribune ad.

DO NOT SEEM SO BECAUSE THEY ARE BADLY ABUSED AND THEIR WORTH HIDDEN FROM THE PUBLIC—CANADA SHOULD AVOID BUCCANEERING OF AIR WAVES PERPETRATED IN U. S.

OTTAWA.—Unknown to many Canadian citizens a battle for a valuable portion of the public domain is being fought. It is a fight for the unexplored—kingdom in which hundreds of millions of people live for several hours each day. It is a fight for the bridgeheads into radio land. This world of reality and make-believe, of music and sound, covers the earth and reaches the heavens above and the depths below. Like the earth, it is marked off—the earth in degrees of longitude and latitude; radio by channels of ten kilocycles each. Covering the earth are 360 degrees of longitude and 360 degrees of latitude. That is all there is—no more. However, like the earth, in radio land there are many zones, some in present conditions, and some in the future. The zones for radio use only 98 are really worth present-day equipment. Much could be written describing the zones, but for the purpose of this article it will all simplify into the fact that there are only 98 of them at the present time travelling over with broadcast transmitter and receiver, and that in North America nearly one thousand stations occupy them.

Sure these 98 channels are valuable. That is what the fight is over. Private interests are seeking to exploit them to the limit. The strange feature of the situation is that the people of Canada, who have certain rights in these channels, are totally ignorant of their worth; many do not even know of their existence. They turn the dial of a radio set and are totally at a loss to know what the operation is that at certain numbers certain programs are heard—maybe.

In the meantime, United States interests have practically gobbled up the 98 channels and are using them to full capacity; in fact some channels have far too many stations. The United States is striving to undermine the Canadian people's faith in their own radio system, and to get the Canadian people's ears and eyes what privately owned stations are doing; conveniently forgetting that the radio is a public utility, and that the truth is that there is a good radio reception in Canada that is better than radio reception in too many in the United States. The United States has one or two over-powered or wrongly placed ones in Mexico. Not more stations, but less of the kind of stations that are now being built in Canada. Ninety-eight modern high-powered stations on each ten-kilocycle channel, would be much better than the present hotchpotch of radio programs in the United States. With these key stations operated by government commissions, lower-powered transmitters could be used as auxiliaries in zones where they would not interfere with the main stations.

One thing is certain. Successful invasion of Canada by the United States radio channels loaded down with low-powered stations would be a bad setback to Canadian broadcasting. The United States has a large number of stations, but the quality of the stations is as follows: 1. Kilocycles being placed first then the number of stations which has on that kilocycle channel.

INTIMATES PRAIRIES TO HAVE NEW HIGH POWER TRANSMITTER

TORONTO, July 16.—CBC has announced that Hon. C. D. Howe, Minister of Transport, has authorized the construction of a new high-power transmitter for the Prairie region. This transmitter, taken in conjunction with the new 50,000-watt transmitter being built simultaneously in the Maritimes, will complete the second instalment of the national plan of high-power coverage. The first instalment consists of two 50,000-watt transmitters completed last year by CBC for the regions of Ontario and Quebec.

The total stations: U.S., 691; Canada, 17; Newfoundland, 5; Mexico, 17; Cuba, 5. A grand total of 733.

Of the 691 U.S. broadcasting stations only four are rated at 50 watts; 300 are powered at 100, 2 at 200, 1 at 500, 10 at 1,000, 5 at 2,500, 22 at 5,000, 1 at 7,500, 11 at 10,000, 1 at 20,000, 1 at 25,000, 34 at 50,000.

Examination of the above list reveals that only one Canadian station has a channel of its own.

Then there are the channels which Canadian stations share the channels they are on.

Seven United States stations have a channel to themselves; seven others have a channel to themselves part time. All these favored United States stations are high-powered (50,000 watts). One of them—Keweenaw—has a high-powered broadcasting station at Pittsburgh, Pennsylvania—is justly entitled to its place in the world as the pioneer of radio.

It has always been in the lead for the world in radio broadcasting and reception. Radio listeners owe much to Keweenaw for the work it has done in the past.

The other United States stations favored with cleared channels are the only ones in the air there would be little to complain of. There would be no heterodyne whistles and no cross-talk, no radio listeners. Needless to say, there are other United States stations which are not so favored.

A clear channel each but unfortunately do not have one.

Then there are the channels loaded down to the limit. Six of these—1200, 1210, 1310, 1370, 1420 and 1500—have 51, 37, 61, 56, 47 and 42 stations, respectively, on them. It is the devastating result of the efforts of private enterprise to give communities willing to pay the price their "place in the sun" of radio land. Take the first channel mentioned, the 1200 k.c. one, as an example of the rest. It has 51 occupants. In the batch are three Canadian stations, two powered with 100 watts, the third with 50. In the 18 United States stations are three 250-watt stations, the balance being all 100 watts.

Fifty-one installations of a standard size of radio station on one channel alone! Big money to be made putting them in. Fifty-one potential sources of advertising revenue, day and night! Isn't that worth while? No wonder the wise men want to wreck CBC, for Canada, with its suppressed harmonious scheme to place radio stations equipped with transmitters of one or less than 50 watts, wire type. Little would the exploiters care that such transmitters, with their unsuppressed harmonious scheme, might ruin a dozen channels for radio owners living within a radius of three or four miles of the broadcasting plant, and that business men of the district in a little while would be being the victims of a first one scheme and then another.

For the welfare of radio broadcasting a clear reception in the air there would be little to complain of. There would be no heterodyne whistles and no cross-talk, no radio listeners. Needless to say, there are other United States stations which are not so favored.

ILLUSTRATED NEWS OF THE WEEK

A SPECIAL TRIBUNE FEATURE

THE BEST OF THE WEEK'S INTERESTING NEWS PICTURES

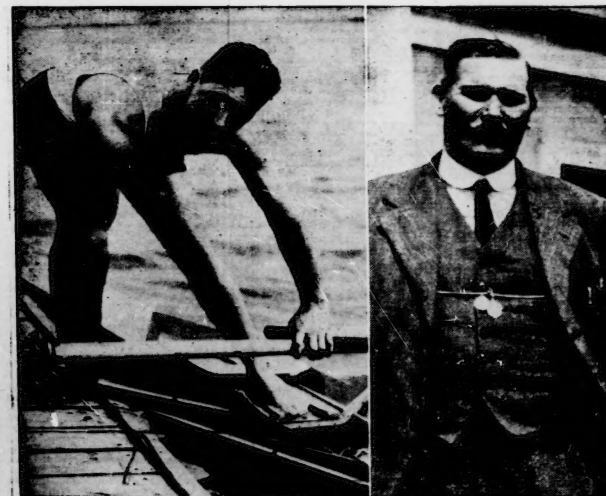

PRESIDENT ROOSEVELT GOES ON A TRANSCONTINENTAL TOUR

Thousands of miles will be added to the total coverage by much-travelled President Roosevelt before the end of the summer. His latest itinerary, starting from his home at Hyde Park, N.Y., is shown above. After reaching California, the President will cruise to the equatorial Pacific, embarking from Los Angeles.

PRINCE DENIES BEING INVOLVED IN HUTTON CASE

Emphatically denying that he was the "gentleman in London" mentioned by Count Kurt Haugwitz-Reventlow in his reply to the divorce action of his wife, the former Barbara Hutton, Prince Frederick of Prussia, right, said that he was "just a friend" of the Countess. He disclaimed any connection with the case which has caused a sensation and termed reports linking his name with the Woolworth heiress as "utterly ridiculous." It was Sir Patrick Hasings, top, centre, chief counsel for the Countess, who brought mention of an alleged "love rival" into the court record, launching a storm of discussion which continues as society conjectures on plans of the heiress. At left is a picture of the Countess, while lower centre is Count Reventlow.

AUSTRALIAN SCULLERS INVADE CANADA

Evans Paddon (left) present professional sculling champion of Australia, about to take a row on Lake Ontario off the Canadian National Exhibition, in preparation for his forthcoming race against Bob Pearce, present world professional sculling champion, at the Canadian National Exhibition again this fall. At the right is a picture of James Paddon, his father, who was the world's sculling champion for a long period of years, and who is in Canada to train Evans and two other Australian stylists, George Cook and Percy See.

SWEDEN'S KING CELEBRATES BIRTHDAY

Sweden celebrated as a national festival the eightieth birthday of King Gustav and there was great rejoicing in the Scandinavian countries. This picture shows the popular monarch (left) riding through Stockholm with his son, the Crown Prince Gustav Adolf, and his granddaughter, Princess Margareta.

ENGLISH MASONS ARRIVE FOR ANNAPOLIS ROYAL CELEBRATION

Welcomed on their arrival at Quebec by fellow-craftsmen representing many Canadian lodges, the English delegation representing the Grand Lodge of England at the 500th anniversary of the founding of the first Canadian lodge at Annapolis Royal, N.S., held last week, is seen above. Left to right: Right Worshipful Rev. T. T. Buckley, Provincial Grand Master for Oxfordshire; Right Worshipful Major Robert L. Loyd, C.B.E., Past Deputy Grand Director of Ceremonies; Most Worshipful Sir Francis Davies, K.C.B., K.C.M.G., K.C.V.O., Deputy Grand Master; Right Worshipful Viscount de Vesi, Senior Grand Warden; and District Deputy Grand Master Sanderson of Quebec and Three Rivers. In the background are, left to right: Worshipful Master J. C. Hope, St. Paul, Montreal; Right Worshipful W. D. Lawrence, District Deputy Grand Master, Manitoba; and Most Worshipful J. T. Boyd, Past Grand Master, Manitoba.

TEST MATCHES DRAW BIG CROWDS

The cricket test matches between England and Australia are so popular that it is almost impossible to get a seat an hour after play starts. In the picture above a groundsman is putting up the "Ground Full" sign at Lord's Cricket Ground, watched by a disappointed crowd of spectators.

"I don't smoke and I don't drink."
"To bad habits at all?"
"Yes—I tell lies!"

Baseball

In the first game of the baseball tournament Spirit River eliminated Beaver Lodge, 3 to 0. McLennan put the colored Athabasca team out of the running by 15 to 8.

La Glace and Hythe next tangled. La Glace winning, 6 to 5.

Grande Prairie defeated Dawson Creek, 6 to 3.

Ladies Softball

In the ladies' softball, which proved very popular, Wembley proved too strong for Sexsmith, winning by a large score.

Spirit River and Grande Prairie seniors then took the diamond, Spirit almost doubling the score.

Second Day, July 16

Horse Races

Breed Race—1st, Black Paul; 2nd, J. May; 3rd, Little Joe. These horses

came under the wire in the same order the day before.

Free-for-All—1st, Iron Knight; 2nd, Blonde Star; 3rd, O Boy.

Ladies' Chariot—1st, Mrs. D. Rappell; 2nd, Christine Harrop.

Pony Race—1st, Jean McLaughlin; 2nd, Elmer Gillespie.

Roman Standing—1st, L. Toffeland.

Breed Race—J. Letender; 2nd, B. Campbell.

Ment's Chariot—1st, Marshall; 2nd, Elmer Gillespie; 3rd, Toffeland.

Consolation—1st, Knight Kapp; 2nd, Miss Nance; 3rd, Referee.

Baseball

Spirit River defeated McLennan and Grande Prairie won from La

Glace.

Final Baseball Game

Spirit River and Grande Prairie

then met in the final, Spirit River

winning, 6 to 5, in 11 innings.

Batteries—Spirit River, Archibald

and White; Grande Prairie, Lloyd

Nellis, Dave Turner and Father

Napkins.

As the score indicates, the game

was close all through.

Nellis, who pitched for the Prairie

against La Glace just previous, was

relieved in the fifth by Turner.

Archibald for Spirit River pitched

a strong game throughout the long

session, allowing only ten hits.

Wembley defeated Grande Prairie

intermediates.

In the final Wembley weakened

and Spirit River won out by a large

margin.

MONKMAN PASS NEWS

Latest reports are that the work

of completing the gap this side of

Stony Lake is rapidly nearing com-

pletion. About thirty volunteers are

assisting J. A. Johnson in this work.

Trucks have been passing over this

section recently, but for one more

week cars owners are advised not

to attempt the trip.

Heimer Johnson's party beyond

Stony Lake is approaching, if not at

the crossing of the Kinuso River

which is opposite the Big Spruce.

Considerable of a bridge is required

here before the last lap to the Falls

is reached.

A party of men from Vanham and

Peoria returned through Grande

Prairie yesterday after making a trip

to the bottom of the end of road

and on to the Falls. They are highly

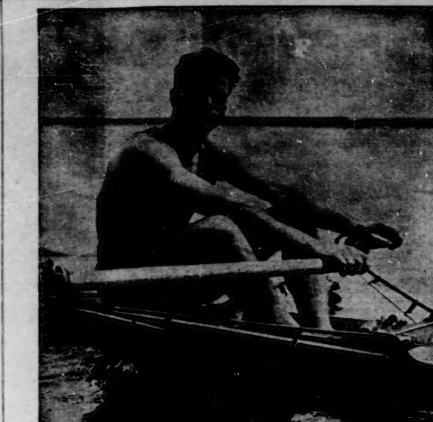

pleased with the project and the

work accomplished. Last Friday a

party of eight or ten more volunteers

from La Glace went up to support

the line at J. A. Johnson's camp on

ANOTHER AUSTRALIAN SCULLER IN CANADA
George Cook, professional sculler champion of New South Wales, Australia, photographed in his shell as he tried out sculling conditions on Lake Ontario in preparation for his race at the Canadian National Exhibition Regatta, when he will meet other champions, including Bob Pearce, present holder of the world's professional sculling title.

GREAT ACTIVITY AT YELLOWKNIFE, BRITES

YELLOWKNIFE, N.W.T., July 13.—Find enclosed a M.O. for one dollar and a half, for which please

renew subscription to The Tribune

so one may keep in touch with the

doings of the Peace. It is well read

here and is looked forward to on

most days, as we have several Grande

Prairieites here and from surround-

ing districts.

Saw Wm. Drynan and his party

when they arrived. Bill is well

and that is 24 hours daylight at the

present time, but understand there

are only a few hours daylight in

winter. I wouldn't be interested in

working for any Farmer John, if

there were any, but farming wouldn't

be very profitable here, as it's mostly

rock, muskeg and small lakes—

which makes a very nice view from

the air. Timber of any commercial

value is very scarce. Wood sells for

around ten dollars per cord.

Aeroplane are nearly as common

here as cars are in the Prairie. It's

amusing to see several of them

here anchored in the bay and some

coming in or going out every day.

The boys tell us if there are any

planes, boats or what may be comes

in without any point on them, they

are from the Peace River. Of course

one has to be subject to a little jest-

ing once in a while. But, anyhow,

here's to the good old Peace River.

WEMBLEY PARTY ATTEND

STAMPED AT CALGARY

The following from Wembley and

district returned to Calgary where

they visited the stampede: Wallace

Edgar, Mr. and Mrs. Herb Brough,

Mr. and Mrs. McLean. They

also took a run up to Banff.

In discussing the Calgary stampede

and the Tribune reporter, Mr. Edgar

stated that it was the finest in

the world and the street parade was

described as simply wonderful.

GIFT SHOWS SPIRIT OF CHINA

In June, 1917, a war year for the

United States, the present Mme.

Chiang, a daughter of the famous

Chinese Song family, was graduated

from Wellesley College.

DANCE AT THE GOLF CLUB

ON FRIDAY NIGHT, JULY 22

A dance will be held at the

club-house, Richmond Hill golf course,

on Friday night, July 22, from 9:30

sharp to 12:30, for members,

shareholders and invited

friends.

This is the first dance to be

held since the installation

of electricity. A flood of

light will add to the brilli-

ancy of the occasion.

GIFT SHOWS SPIRIT OF CHINA

In June, 1917, a war year for the

United States, the present Mme.

Chiang, a daughter of the famous

Chinese Song family, was graduated

from Wellesley College.

June 18, 1938, Mme. Chiang's

classmates held their annual reunion

on the shores of Lake Waban. But

1938 is a war year for China, and

Mme. Chiang could not attend.

Instead she sent a gift of silver

spoons, which were used at a reunion

spoons. When she sent a message that

she was sharing in the festivities,

she added that the spoons are "to

show that a spoon may be licked, but

not China.

Mme. Chiang's patriotism is charac-

teristic of the new China which she

and her generalissimo husband

have helped to build, a new China

which with old stoicism is doggedly

defending itself in a war still un-

declared. Her humor and love of

subtle parable are likewise charac-

teristic.

The western world should realize

that these racial traits are not the
